## DIRECTOR'S MESSAGE

Hello CDC Fam!

I want to extend my heartfelt thanks to everyone who contributed to the success of the center's first week. This week was a wonderful opportunity to connect, build relationships, and set the stage for a fantastic school year together.

Our center goal is to prioritize creating meaningful connections between our school, families, and community. Your participation in special events, and classroom volunteer helps strengthen our shared commitment to supporting our students' growth and success.

As we continue to foster these connections, I encourage you to get involved with our Parent Advisory Committee (PAC). Your participation, attendance at monthly meetings, and volunteering at events are vital to our collective efforts. Your support truly makes a difference!

We're also wrapping up our beginning observations and data to guide our instruction and work toward success for all students, please be on the lookout for your assigned teacher(s) to connect with you via Class Dojo or in person regarding your child's assessments and development progress these past couple days.

*Mrs. Candace*
